

Greater Concord Photo Club

Preparing Photos for Display at a Meeting

- 1 Save your photo in the JPEG format
- 2 Resize Photos to fit within 1024 x 768 pixels

- 3 Rename files as 1Lastname.jpg, 2Lastname.jpg, 3Lastname.jpg

If Gertrude Stein was submitting photos she would rename them as "1Stein.jpg", "2Stein.jpg", and "3Stein.jpg".

Please note that there is no space between the number and the first letter. Also, please remember to capitalize the first letter of your last name! Lastly, note that "jpeg" is acceptable in place of "jpg"

Resizing tools

- Use your favorite post-processing program (Photoshop, Lightroom, etc.)
- On a Windows PC: Fastone Resizer (<http://www.faststone.org/FSResizerDetail.htm>)
- On a Mac: Iresize (<http://iresize.en.softonic.com/mac>)
- On an iphone: <http://www.iphonefaq.org/archives/973430>
- On an ipad: <http://www.iosappweekly.com/resize-photos-iphone-ipad/>
- On an Andriod device: <http://www.theandroidsoul.com/how-to-resize-photos-on-android-43655/>
